GARDEN FUN IDEAS

Hose Maze

Mazes are great fun for kids and easy to make.

Just grab your garden hose or some rope and lay out in a pattern on your grass (or go to the park if you don’t have a big enough yard).

Explain the children they must get to the centre of the maze without crossing over the hose.

If you don’t feel confident to design your own maze, find a template on the internet.

Once you have made one, get the kids to design their own!
